

## BTA

## CONTROL BENCH WITH PLC

### DESCRIPTION

This PLC Bench tests and controls coil winding elements. It is inserted into a production line to make a dielectric test along with, in option, a resistance test or ground continuity test. It controls the positioning and active parts to check the product's connection.

This bench should be synchronized with your own data network in automatic mode or works alone in manual mode.

It comes with PLC Siemens Simatic S7-1200 + Proface.

The overall offers :

- an optimized test time to earn production time
- a very short installation and setup time
- a reliability proven by customers
- an optimized maintenance for a quick diagnosis

### FEATURES

#### CONFIGURATION

- 1 work station
- 2 work stations

#### INPUT 1 - option

- Option : Safety relay drives high relays voltage to cut the output and with hardware feedback.

#### INPUT 2 - configuration

- Tests : 1 Dielectric + 1 Continuity
- Tests : 1 Dielectric
- Tests : 1 Resistance + 1 Dielectric
- Tests : 2 resistance + 1 Continuity

#### OTHER FEATURES

- Base unit : PLC Siemens 1200 + Proface

#### POWER SUPPLY

- Auxiliary power : 230Vac/50Hz

#### TEMPERATURE OF CALIBRATION

- 20 to 25°C
